Timy driver installation (Windows 7 and Windows 8)

Hint: You will need administrator rights to install a driver!

 Connect the ALGE USB Stick to your PC. If you do not have an ALGE USB Stick, you have to download the driver from the Alge Homepage <u>www.alge-timing.com</u>. After downloading the driver, you have to extract it: press unzip WinZip Self-Extractor - TimyUSBDriver.exe

To unzip all files in TimyUSBDriver.exe to the specified folder press the Unzip button.		Unzip
Unzip to folder:		Run WinZip
C:\driver	Browse	Close
Verwrite files without prompting		About
		Help

2. Connect the Timy with your PC and switch it on. Please wait until Windows finished searching for the driver. If Windows does not find the automatically, open the device manager and make a double click to "Unknown device". Click to "Locate and install driver"

3. Click to "Browse my computer for driver software"

4. Click to "Browse my Computer for driver software"

	×
🚱 🗕 Update Driver Software - Unknown Device	
Browse for driver software on your computer	
Search for driver software in this location:	
C:\driver\TimyUSB Browse	
☑ Include subfolders	
Let me pick from a list of device drivers on my computer This list will show installed driver software compatible with the device, and all driver software in the same category as the device.	
Next	ncel

5. Click to "search " Then choose the driver location and click "ok" and "next"

6. Please confirm that you really want to install this driver. Check "Always trust Alge-Timing GmbH" to avoid this message in future. Click now to "Install this driver software anyway" to continue.

7. You should get a message that the driver is correct installed. Click to "Close"

8. You can check if the driver is correct installed. Go to Start/ Control panel/System and Maintenance/ Device Manager.
